Offers free basic and restorative dental care to uninsured adults who live within 20 miles of White River Junction and have income under 200% FPL. Application available on website:
goodneighborhealthclinic.org/index.php/dental-patients

EMERGENCY DENTAL ASSISTANCE: After contacting a dentist and making an appointment, you can apply in person for a general assistance voucher at your local Community Action Agency (or at your Economic Services Division District Office). Vouchers are available to help offset some of the cost for emergency dental extractions. People with dental emergencies such as pain, bleeding or infection may be eligible for these vouchers. Contact the local Economic Services Division District Office at 1-800-479-6151 to determine eligibility and what is and is not covered.

Definitions: sliding scale means that the amount of the fee will depend on your income. You can find the latest Federal Poverty Level (FPL) guidelines online. Basic dental care may include checkups, cleanings, sealants, and X-rays. Restorative dental care may include fillings, crowns, bridges, implants, and dentures. An extraction is when a tooth is removed in its entirety. Vermonters experiencing homelessness may qualify for free dental care at the Community Health Centers of Burlington (limit: \$1,000/year).
