

## CHRONIC CARE MANAGEMENT PROGRAM

Chronic Care Management is a special program from Medicare that helps keep track of your health and well-being in between visits to the doctor.

### Why should you enroll?

Chronic Care Management puts you more in control of your own health. Joining our Chronic Care Management program will help us keep track of your conditions and progress. This also helps us work together with any other doctor or specialist you see. We will call you every month to talk about how you are doing and if anything has changed with your health between visits to the doctor.

### What's included?

- Comprehensive Care Plan
- Direct Access to assigned Care Coordinator
- Medication Management
- Medical Services Coordination

### How can I qualify?

- You have Medicare insurance coverage.
- You have 2 or more ongoing health problems.

**Our team can tell you if you qualify!**

**GET IN TOUCH TODAY: 802-234-3831**

For more information on Centers for Medicare and Medicaid Services Chronic Care Management, visit [www.cms.gov](http://www.cms.gov) or call us at the number above. We would be glad to help.

## Program Requirements

- You will be given your own Care Coordinator, who will call you to help you with your health needs.
- You agree to have your CCM services provided to you by your chosen provider.
- You understand your provider may share your health information with other doctors involved in your care to help you.
- You agree only one provider can provide CCM services to you during a calendar month.
- CCM services provide extra help as part of Medicare. You may have to pay some of the cost if your insurance doesn't cover it.

## What happens after I enroll for Chronic Care Management?

If you say yes to joining, someone from our team will talk to you every month to help you with your health. Our team has nurses and medical assistants who know about your health conditions and can help you with your healthcare needs.
